Editor’s Desk

Every generation has something to remember. Our forefathers had India’s Independence struggle, and father’s saw Analog to Digital transformation. Our generation will mark the complete shift to Digital Economy and the catalytic driver would be COVID19 pandemic.

The world would be different once it’s over, but how we response will define our future, and most importantly the public who stays at the margins of the growing Indian economies.

As Srijan, we strive to be the best bricks in the construction of the new regime and the last 3-months are the testimonial to the fact.

We look forward to our vision and support from patrons like you!
Thank you for being there…

Sanitization & PPE
According to Matt Barnum, a national reporter for the education news site Chalkbeat, traumatic effects have big impacts on students’ lives, both on how much they learn and long-term factors like college enrollment rates and income. (vox.com)

Food and Health being taken care of, Education was something we wanted to make an impact. And, the result was launch of our free in-house education portal (isaksham.org) for village students, in collaboration with Quest For Education. We also launched on-demand educational videos app iSaksham for the students of Class 1-12.

iSaksham provides access to a vast number of textbooks and regularly updated video lectures curated by self motivated highly experienced teachers.
